### Important information:

The kit will include instructions on how to use it and return your sample. Ensure your postal address is up to date. If registered outside these areas, contact your GP for more information.

### Results and follow up:

Your results will be sent to you and your GP. If no issues are found, you'll get a new test kit every two years between ages 50 and 74. If further checks are needed, the screening team will contact you.
